Dear Sir,

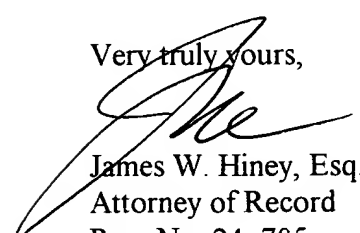

Attached is a Notice to File Missing Parts of Nonprovisional Application.

The notice specifies that the specification was filed in a language other than English and, consequently, the Office was unable to determine the number of claims submitted and that additional claim fees may be due once the number of claims can be determined.

The language of the specification may not be Patent Office English but it is certainly the King's English to anyone that speaks English as a native tongue. This letter is obviously in error and probably corresponds to another case and was entered mistakenly by the Customer Service Center.

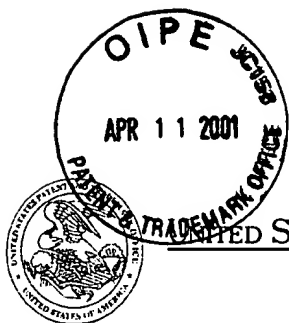

If you require any further help in reading the specification I suggest you hire people that do speak English.

Very truly yours,

James W. Hiney, Esq.
